76% less water used	Equal to 84.1 million showers
9% less landfill waste produced	Equal to the use of 37,857 household garbage bags of waste

Data updated on 30-Jun-2021

The carbon, water, and waste footprints of the fund illustrate the environmental impacts of the portfolio companies' activities compared to those of the benchmark. These figures provide an indication of the fund's sustainability performance as an outcome of the fund's strict impact selection and exclusion criteria. The footprints are calculated only for the listed equity and corporate bond holdings of the fund. They are calculated using carbon emissions data from ISS ESG, and water and waste data from S&P Trucost (@ 2019 S&P Trucost Limited).
